# Phone and Tablet Display Security **The BOSSystem**

**The Black and White SWAN** elevates mobile devices beautifully on horizontal and vertical surfaces. They are Danish Design at its best. Extremely easy to operate and intelligently customized for safe and eye pleasing display of tablets, phones, GPS'es and other 5V devices.

- Powers and charges devices on display
- Secures and authorizes removal of displayed items with RFID User Card
- Safeguards against staff mistakes and neglectance
- No visible wiring
- Mounted with ease
- High or low profile
- Collects data on display performance and consumer behavior
- Enables you to show product videos on external screens as consumers lift the device

**Secure with sophistication.** Be safe from theft, but trust your customers among your valuables. The Black and White SWAN display stands lets customers closer and gives you more time to serve them and to maximize sales.

**Simplicity sets us apart!**

See for yourself, how easy you handle the BOSSystem Black and White SWAN.

# What you need. You decide how many PODs. The BOSSystem then handles each POD as a **stand-alone system**.
